## Netball A Grade

After a consolidating win against Carnamah/Perenjori 38-29 to finish off the round we were looking forward to our first finals game. With a solid third place on the ladder we were allotted to play Dongara in the 1st Semi.

## MI 45 Dongara 18

With today's game being the first final in our run to the Grand final emotions were high and so was the forecast for the weather of 30 degrees.

We knew that Dongara was going to come at us hard and with finals everyone knows anything can happen.

As the girls warmed up we knew that we were going to have to play our game and be very structured in the heat due to the fact that we only had 7 players and one of them was coming out of sickness.

The girls played their best netball so far they all gave 100% individually to the tasks a lot to them and combined it all together as a team which brought tears to the coaches eyes setting themselves up with a 14 -1 second quarter battle.

Our team manager for the final series is Nicole Broad and she is a god send to me on the sideline allowing my brain to focus solely into my netball zone and switch off to all the other duties that need to be done.

As we only have 2mins between quarters she helps me deliver my evaluations to the girls so much quicker. She is taking stats and photos of the score card that help me analyse a game when I get home.

Thank you so much Nic.

After our amazing game today we take on Morawa on Saturday in Dongara in the Preliminary Final and we are pumped and ready for it.

I'm really hoping we can get a huge presence of red on the sidelines as our eighth player of support in finals it can just add that extra magic to help this amazing team get the job done.

Mingenew v Coorow

Final score Mingeneu 33 – Coorow 45

**2<sup>ND</sup> SEMI FINAL**

We are very proud and had worked hard all season to finish on the top of the ladder at the end of the rounds. A very tough and strong effort!!!

Our team had dwindled in numbers from 12 down to 8 in the last few games due to injuries, pregnancy, work and leaving the country.

Going into the 2<sup>nd</sup> Semi against a very strong Coorow side, we knew we would have to work hard.

With the forecast of 31 degrees coming true, we had the sweat towels soaked in ice water, a tonne of water, and lollies at the ready.

We were off to a scratchy start, but then settled into our game and tried super hard and got the score line down to a 2 goal difference at one point.

Coorow had fire in their bellies and a real want for that ball and ran away from us in the end with a 12 goal win.

We play Three Springs in Dongara this weekend in the prelim to get our chance back for the grand final. We will dig in with our team of 8, and show great courage, fight and heart.

Coach, Roz

## MEDIA RELEASE

15 August 2023

### Debate set to get underway to repeal WA Labor's botched cultural heritage Act

The Opposition has been briefed on key changes that will come into effect following the WA Labor Government's spectacular backflip of their botched cultural heritage laws.

Member for Moore, Shane Love said the *Aboriginal Heritage Legislation Amendment and Repeal Bill 2023* would restore the *Aboriginal Heritage Act 1972*, with key amendments.

"Just six weeks after their implementation, WA Labor have bowed to public pressure and announced their government will scrap their botched cultural heritage laws," Mr Love said.

"Whether you emailed, called, signed petitions or showed up to Katanning or Parliament, I would like to thank you for voicing your very real concerns at WA Labor's policy.

"Your voice is your power and, in a state where our voices can often be drowned out by Labor, you persisted and were ready for the fight."

Mr Love also said the Bill will repeal WA Labor's botched 2021 heritage act, with debate set to get underway in the coming weeks.

"The legislation from 1972 will undergo modifications to prohibit the inclusion of 'gag' clauses in agreements involving Native Title parties and will grant Native Title parties the ability to review Ministerial decisions.

"Importantly, the Government have also promised to cover the cost of land surveys for ten years, which will not be compulsory for landholders.

"These matters will be discussed in Parliament over the next few weeks. I strongly encourage people get in touch with me to ensure your questions and concerns are raised."

Leader of the Opposition and Leader of the Nationals WA, Shane Love, said the Premier still has questions to answer.

"WA Labor reeks of a government which listens to the polls, not to the people," Mr Love said.

"Only a matter of weeks ago, Premier Cook said his laws were 'not radical' and were 'ready to go'. Now, he says the laws "unintentionally caused stress, confusion and division in the community.

"Questions still need to be answered by the Premier – Will regional Western Australia be treated with more respect in the future, and, after all the disturbance and amendments to the 1972 Act, will landowners be able to go back to business as usual?"

"After weeks of ignoring a 30,000-person strong petition, overcapacity at every Government run education session, dozens of representations, labelling opponents as 'racist' and 'dogs returning to their vomit' and calls for the Opposition to 'get on the right side of history', WA Labor have retreated.

"It is because of your hard work WA Labor Government ate its words and crumbled.

"What West Australians deserve now is more than an apology – we deserve a new Government. Our communities will not survive another term of Labor."A

## Springtime Stargazing

Spring is the perfect time to get out under dark country skies and be in awe of the sparkling stars and planets overhead. But that's not all, let's throw in a close encounter between Saturn and the Moon, the Spring Equinox AND Scorpio!

The Spring Equinox is on 23<sup>rd</sup> September and marks the transition from winter in the southern hemisphere. The number of hours of daylight will almost equal darkness!

Spring is a great time to find the constellation Scorpio! It's a large constellation that forms the shape of a scorpion! It is currently visible throughout the evening, lying directly overhead at around 8pm. Look for a reddish star called Antares that lies in the centre of the constellation. See if you can find the curve of Scorpio's body and the sting in its tail stretching across the sky!

**Something interesting:** Antares is a super-giant red star several hundred times the diameter of our Sun and is about 600 light-years from Earth.

**When to look:** after 8pm during spring.

**Which direction to look:** Directly overhead.

For some fun stargazing, the full Moon makes a close approach to brilliant Saturn on 27<sup>th</sup> September and the pair will look stunning together. For those with telescopes or high-powered binoculars, check out the beautiful ring system of Saturn.
