## AN UPDATE FROM **MINGENEW POLICE**

### **Travelling Con Men**

In recent months Mingeneew has been visited by door-to-door salesman offering bitumen and solar services. These operators have since been identified to be dodgy con men.

Travelling con men frequently disappear, leave the job unfinished, use substandard materials, or complete the work to a poor standard. They are known to quote an amount but then demand a significantly higher amount when the work is completed. They can threaten to destroy the work completed if invoices are unpaid.

Jobs such as painting, roof repairs and sealing driveways are common tasks con men offer at a cheap rate, often putting the resident under pressure to say yes. If you have already had work done by any of these companies and are unsatisfied, we recommend not paying the invoice and report it to Consumer Protection 1300 304 054.

If you believe travelling con men are on your property or in your immediate area, call Police on 131 444. If they have left the area, contact Crimestoppers 1800 333 000.

*Continued next page ...*

## **What to look for**

### **Be suspicious of people who:**

- knock on your door unexpectedly
- offer cheap deals using words like 'for today only'
- ask for cash up front
- offer to drive you to the bank to get money for payment
- make you feel pressured to accept their offer.

## **Protect yourself and your community:**

### **If you suspect a travelling con man is knocking, don't open your door.**

- If you do speak to them, ask them to leave. If they refuse, they're breaking the law.
- Record as much information as you can, such as their name and vehicle registration, and report them.
- Don't be tempted by unexpected cheap deals – they may be much more expensive in the long run.
- Warn your friends, family and neighbours.
- Share on your local social media groups

## **Do you need actual work done?**

### **If you decide you need work done on your house, you should:**

- shop around for the quote that is right for you
- only use established tradespeople who provide written quotes
- ask for contact details of previous clients for references
- do not sign any agreement until you are ready.

## **Report travelling con men**

- If you need any further advice or assistance, please contact Consumer Protection Contact Centre team on [1300 304 054](tel:1300304054)
- Contact the WA Police or Crimestoppers

# WA ScamNet

## Scam prevention

Scammers are very clever and are constantly finding new ways to reach potential victims. Our tips below may help protect yourself, a friend or family member.

### Simple advice to avoid becoming a victim:

#### **Do not let anyone pressure you into making decisions**

Scammers often try to create a sense of urgency so the recipient of the call will act impulsively. They do this through short deadlines, fake emergencies, threats of legal action or claims a deal is too good for you to not consider entering into it now.

#### **Get a second opinion**

If someone is requesting money from you and you have any doubts, discuss it with a trusted and reliable third party, like a friend, family member or contact WA ScamNet.

#### **Investment opportunities**

Do not respond to emails, text messages and phone calls from strangers offering predictions on shares, investment tips, or investment advice. Always do your own research before you invest any money and check the company or scheme is licensed on ASIC's MoneySmart website. Watch out for claims the investment has zero risk with massive returns.

#### **Dating online**

Know who you're dealing with. Watch out for profiles on social media and dating websites who claim they are located in your area but then can't meet due to travel or moving away. Be aware of them avoiding meeting you but are then happy to request money. Don't send money to someone you've never met in person, regardless of the circumstances or reasons they claim to need it. You aren't a bank and will not be able to recover the money from them. If someone approaches you on social media and you don't know them, it may be a scam.

**WA ScamNet**

## **Cold call offering help with your computer**

If you receive a call claiming to be from Microsoft, Telstra, NBN or anyone else, telling you your computer or your internet has a problem, it is likely to be a scam. Never allow anyone to remotely log into your computer and if you do, do not log into any important accounts or applications, such as your bank accounts.

## **Government agency calling**

Government agencies will generally write to you if you are entitled to, or owe, money. If somebody calls you claiming to be from the Government offering you unexpected money, be cautious. Get enough information on the organisation and the caller and then find independent contact details so you can check the legitimacy of what you have been told.

## **Making a Payment**

Take a second to think about how an organisation or person is asking you to make a payment to them. Bank transfer, cash deposits, cardless cash withdrawals, gift cards or international money transfer services are extremely difficult to reverse once completed and even more difficult once the money has been released? Scammers use this method for that exact reason. Even using the 'family & friends' option through PayPal cannot always be reversed. By the time you discover you are the victim of a scam or even just made an error, it is too late.

## **Gift cards**

If you have been asked to purchase gift cards to pay taxes, catch scammers or pay outstanding debts you know nothing about, this is a scam. No government agency or business will ever ask you to make a payment via gift cards. Gift cards are not a means to pay off debts. If you paid a scammer with a gift card, report it as soon as possible. Call the company that issued the gift card and tell them the gift card was used in a scam.

## **Keep wise**

Obtaining information from reliable and trustworthy sources is the best way to protect yourself from scams. WA ScamNet and Scamwatch websites regularly publish updates on scams, how to avoid them and how to get help. Download the Scam Spotting fact sheet for advice. Subscribe to WA ScamNet email alerts and follow Consumer Protection WA on Twitter or facebook. You can also subscribe to Scamwatch Radars and Australian Cyber Security Centre (ACSC) alerts.

## MINGENEW RECREATION CENTRE HOONING

Mingenew Police are interested in identifying individuals responsible for intermittent hooning within the Mingeneew Recreation Centre car park. The prize for such offending consists of a court appearance, hefty fine, loss of licence and vehicle impoundment. If you know something give us a call or report anonymously via crime stoppers.

## KING STREET FENCE DAMAGE

Mingenew Police are currently investigating damage to the fence surrounding the cul-de-sac at the end of King Street. The damage occurred between the 9th and 11th of September 2023. A vehicle appears to have driven through the fence in attempt to access Midlands Road from King Street. If you know something, give us a call or report anonymously via crime stoppers.

## DRUG DEALER CHARGED

In September, local police actioned community intelligence, intercepting a vehicle on its return to Three Springs. The vehicle was found to contain dealer quantities of prohibited drugs. The 28 year old male occupant was charged with possessing a prohibited drug with intent to sell or supply and is due to appear in the Geraldton Magistrate Court in October. We continue to target the distribution of illicit drugs in Mingeneew and surrounding communities.

## WELCOME TO CONSTABLE STEVEN JARVIS

With the departure of Glen Hillman and his family, Steven Jarvis has joined the Mingeneew Police Station team. Steven has transferred from Narrogin and brings with him a wealth of regional policing experience. Steven has moved to Mingeneew with his partner Trudy. You'll be sure to bump into Steven around town in the coming months.

We're targeting the distribution of prohibited drugs in our community. If you know something, say something

# ARROWSMITH COMMUNITY CHATS

**Would you like to learn more about the North Midlands' transition to renewable energy?**

With \$10bn of current and proposed industry investment centred around the Arrowsmith area's on- and off-shore energy projects, hydrogen projects and carbon capture and storage, as well as mineral sands extraction, rare earths processing and fertiliser production, this activity has the potential to transform the regional economy and social landscape.

At these free events, you'll hear from Arrowsmith project proponents, such as Beach Energy, Iluka Resources, INPEX and Strike Energy, subject-matter experts on the energy transition, plus related activity in the region, and come away with a better understanding of the industry's potential, it's possible impacts and the opportunities it may provide.
