Community Information Letter about Bolinda Street Railway Crossing being closed for long periods.

The following letter has been sent to Simon Stead (Chairperson for CBH) and Ben Macnamara (CEO for CBH) and all CBH Directors (12 directors).

Dear Ben and Simon,

The problems associated with Bolinda Street rail crossing have become more serious now that Terra Mining has been contracted to cart 1.4 million tonnes of iron ore per year (92 truck movements per day) all using Bolinda rail crossing. Bolinda Street crossing is the only Rav 7 crossing at Mingeneu.

Rail crossing data February 2022 to August 2023 reveals Bolinda Street crossing was closed 458 times longer than 30 minutes, and on one occasion 349 minutes, (5 hours 49 minutes) by CBH trains.

Currently when the train closes the crossing, contractors for Terra Mining are driving through the CBH facility and crossing over the southern crossing.

As of 2nd March 2024, we've been advised Aurizon have reduced the size of their train sets and must break up three times to load the train one third at a time. Bolinda Street crossing will be closed eight times every time a train is loaded under this scenario.

We respectfully suggest you ask your Network and Planning team to demonstrate to the Board what is required to have the train fully loaded (without breaking the train set up) before closing Bolinda Street crossing or a relocated crossing.

We know how this can be achieved and would be willing to address and make a presentation to either the full board of CBH or at least the Network and Planning Committee, to explain how we believe a 42-wagon train can be fully loaded in 1 hour 15 minutes.

(makes Broomehill slow doesn't it!) by strategically locating the proposed additional (ASCI) Garner bins and train loading equipment.

Other considerations –

1. Legality of knowingly closing a public facility (rail crossing) while carrying out a commercial operation (loading a train).
2. 3 or 4, 36metre Road Trains being stacked and released at the same time when the crossing opens.
3. National Rail Safety Regulator.
4. Trains will always load in Mingeneu during harvest receivals to fully utilize rail fleet and Geraldton Port facility (unloading trains at night time in Geraldton).

Regards,

Mingenew CBH Bin Representatives

Jon Holmes 0429 728 011 David Bagley 0428 726 043 Jeremy Wasley 0488 728 001

We Need Your Assistance!

The voluntary organisation, Outback Grave Markers, is delighted to have been able to work with local farmer, Peter Horwood, in erecting a memorial to little William Henry Oliver who died 21 April 1890 and was buried near an old house on Peter's property. William Henry was the first-born child of Jane (nee HERBERT) and Thomas Richard OLIVER, who were married at Strawberry on 17 August 1887. A few years ago, Peter came across the headstone for this little boy. He then moved an enormous rock to the roadside and Outback Graves have since attached the headstone to the rock and added a plaque to the front of the rock. More recently, OGM has added a laser-engraved plaque telling the story of this little boy and his family.

The only photographs we have found of his parents are both very vague and blurred. We have similar photographs of three of his younger sisters. We are urgently seeking clearer photographs of any of this family, in particular: Winifred Elizabeth born Strawberry in 1891, married William Robert MOORHEAD; Rhoda Leah born 1894 in Mingeneu, married Gilbert RIGGS; Ivy Church born Mt Magnet 1896; Thomas Herbert Hunt born Mingeneu 1898. In these photographs, Jane and her daughters appear to be wearing lace collars that may indicate their belonging to a religious group, such as quakers. Any further information on this would be most welcome.

There were 14 children in all, including the twins that Jane was carrying when she obtained an abortion in Yalgoo in 1910 and died from septicaemia within 2 hours. She is buried at Golden Grove with three of her children.

We, of Outback Graves, are delighted to see so many tracks that indicate the number of folks who are interested in reading the plaques on the rock by Peter's gate. If anyone has more information or, particularly, clear photographs, of this family, we would be very grateful to be able to add them to this sad story.

My contact details are secretary@outbackgraves.org, Phone 0439 776 150.
Thank you

SHIRE UPDATE March 2024

Engineering Award – Mingenev Tennis Clubhouse Project

Council was named as a finalist in the Institute of Public Works Engineering Australasia Western Australia (IPWEAWA) Engineering Excellence Awards for the Mingenev Tennis Clubhouse Replacement. We are delighted to announce that the Shire of Mingenev received the Judges Award for the best public works project under \$2M Regional. This is a fantastic achievement - well done team Mingenev!

Big welcome to the team – Jack Smith

We would like to give a warm welcome to Jack Smith, partner Charlotte and dog Jed, who have recently moved to Mingenev, with Jack joining the team as Senior Finance Officer.

Jack has extensive experience in accounting in the private sector and has quickly picked up the unique aspects of local government, and we have every confidence he is going to be a valuable addition to the team!

Employment Opportunities

The Shire currently has the following job opportunities available:

CUSTOMER SERVICE OFFICER

The Shire of Mingenev is seeking an experienced Customer Service professional permanent to be the first point of contact for all customer enquiries and provide administrative support to the team. This position is now available as a permanent, full-time position (80 hours per fortnight with one RDO per month).

Applications have been extended to 9am, Tuesday, 26 March 2024.

CADET ENGINEER

The Shire of Mingenev is currently seeking Expressions of Interest from active, self-motivated individuals who have a strong desire to pursue a career in Engineering. This Cadetship program will offer you the opportunity to gain hands on experience assisting Council's Works team to build and maintain the Shire's infrastructure and assets. Council offers a professional environment; modern technology and mentoring opportunities.

The ideal candidate will have a willingness to learn and apply themselves to their studies. Tuition support and paid study leave is provided as part of the cadetship.

Applications Close: 9am on Tuesday, 5 March 2024.

Council Meeting Update, 21 February 2024

Visit <https://mingenev.wa.gov.au/minutes/> to read the latest Council meeting Minutes. Below is a list of some of the decisions from recent meetings that may be of interest:

- *Consideration of Options Report for Mingenev Town Hall*

Shire Office
21 Victoria Street
(PO Box 120)
Mingenew WA 6522

The Shire received a comprehensive report detailing options to restore the Town Hall for future use and resolve to seek quotes based on recommended works. The information is currently being prepared to consult the community on the options to further inform decision making.

- *Rejection of house/shed development application*
Council considered a proposal for a residence/ outbuilding at 40 Victoria Road, which was ultimately rejected as it wasn't considered in keeping with the architecture of its surrounds.
- *Community Infrastructure Fund Contribution Reserve*
As part of the road user agreement established with Terra Mining, a Community Infrastructure Fund was to be established to receive contributions.
- *2023/24 Mid Year Budget Review and Budget Amendments*
Council is required to undertake a mid-year review of its financial position in relation to its adopted budget. As such, the review was tabled and a number of amendments made to the budget to account for material variances and projections likely to impact the budget.
- *Sundry Debtor Write Off*
Council resolved to write off a sundry debt of \$8,035.25 which is attributed to costs of recovery for alleged damages to the Shire's grader by a third party, as it was deemed uneconomical to proceed with recovery action.
- *Rate Exemption for Roman Catholic Bishop of Geraldton*
A rate exemption status has been approved for the Roman Catholic Bishop of Geraldton, as they meet the definition of a religious group and utilise the property for religious purposes. This status will be reviewed after 5 years.
- *Adoption of Strategic Community Plan and Corporate Business Plan*
Council adopted the final Strategic Community Plan 2023-20233 (which incorporates the Corporate Business Plan 2023-2027) – a copy of which will be available on the Shire's website at <https://mingenev.wa.gov.au/strategic-plan/>
- *Annual Meeting of Electors*
Council received the Minutes of the Annual General Meeting of Electors held 31 January 2024 and noted the Annual Report 2022/23 was received.
- *Works Report – February 2024*
An update on Council's Works program and associated activities for December 2023 – January 2024 was provided.
- *CONFIDENTIAL ITEM – Request by GROH to supply teacher housing*
A confidential report was considered by Council to potentially support local teacher housing by building two houses. Council supported the proposal, in principle, and authorised the CEO to commence negotiations and undertake a cost benefit analysis to inform a final decision.

Restricted Burning Period – ends 15 March 2024

As per the annual Fire Break Notice, the restricted burning period ends 15 March 2024 (during which permits are required). Please ensure you are exercising caution with any burning off that you are conducting, even if it is during open season. The DFES website has some information to help landowners <https://www.dfes.wa.gov.au/hazard-information/bushfire/planned-burning>

For queries or assistance, contact Chief Bushfire Control Officer Murray Thomas on 0428 281 157 or the Shire on 08 9928 1102.

Backyard Buddies

Your monthly guide to pests, weeds and diseases

March 2024

That's so weird!

Witches' broom on *Jacksonia* causing red deformed growths, fasciation on *Templetonia*, chimera on orange rind, and phyllody on strawberry.

Plant abnormalities have intrigued gardeners and botanists alike for many years. These abnormalities sometime result in strange growths or odd variations. Causes include environmental or genetic factors, pests, and disease. Below are some common examples, and perhaps you've noticed one or two of these before?

Witches' broom

Witches' broom is a symptom of stress in woody plants resulting in a deformed mass of twigs and branches, which looks broom-like in appearance. Causes include insect pests, viruses, fungi, environmental factors and genetic mutations.

Fasciation

Fasciation appears as abnormal flattened, ribbon-like, crested or elaborately contorted stems or leaves. Causes include hormonal, genetic, bacterial, fungal, viral and environmental.

Chimera

Chimera is the result of a genetic mutation. The overall appearance of fruit can be changed and sections of the rind or skin can appear striped and/or green. This is often reported in citrus where the rind colour is perfectly split between yellow and orange. Chimera leaf mutations

produce variegated, misshapen, or completely white leaves. These mutations may be prized and propagated to create new varieties.

Phyllody

Phyllody is the abnormal development of the leaf tissue caused by viral infections or environmental factors resulting in an imbalance of the plant hormones. It makes leaves grow in strange places.

Is control or reporting necessary?

Not much can be done to prevent these oddities. Keep plants as healthy as possible to allow them to fight off pests and diseases as best they can. These weird and sometimes wonderful malformations can be a great talking point, but if you don't want them on your plants, consider removing the affected parts. Remember to disinfect gardening equipment before and after, to avoid spreading pests and diseases.

We would love to see photos of any weird or wonderful plant growths or variations. Take photos, tell us what you've found and on what plant. Photos can be submitted to MyPestGuide or the Pest and Disease Information Service (PaDIS).

Report your observations

MyPestGuide® Reporter via app or online mypestguide.agric.wa.gov.au

Midwest/Gascoyne
Regional Education Officer
Cancer Council Western Australia
Leigh.Bright@cancerwa.asn.au

Are you up to date with your bowel cancer screening?

Cancer Council WA is calling for more West Australians to complete the free lifesaving bowel cancer screening test, with figures showing only four in 10 eligible Australians are participating in Australia's National Bowel Cancer Screening Program.

Bowel cancer is Australia's second biggest cancer killer. Many people don't realise it kills more Australians each year than breast, prostate, or skin cancer.

When you receive the test, don't put it in the cupboard and forget about it - delaying can easily become ignoring, forgetting, and ultimately not doing.

The test is quick, simple and you can complete it in the comfort of your own home. Over 90 per cent of bowel cancer cases can be successfully treated if caught in the early stages.

To find out more about the National Bowel Cancer Screening Program or to order a free replacement kit, go to bowelcancer.org.au or call **1800 627 701** for more information.

When UV is 3 or above be SunSmart.

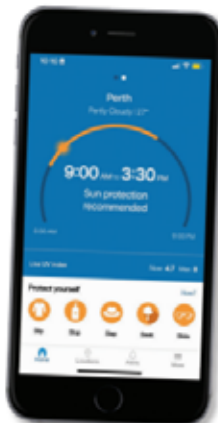

But how do you know when?

Use the free SunSmart Global UV App!

The sun's ultraviolet (UV) radiation is the major cause of skin cancer. UV cannot be seen or felt and can damage your skin on cool or cloudy days. The sun protection times tell you when UV is forecast to reach 3 and above, **that's the time to be SunSmart.**

Scan to download
the SunSmart app

Download the app or go to myUV.com.au

Department of Health

Find Skin Cancer Early

Common skin cancer symptoms:

- A new spot or mole on your skin that is red, pale or pearly in colour
- A spot that is different from other spots on your skin
- Any crusty or non-healing sores
- Any spots, freckles or any moles changing in size (width), thickness (height), colour, or shape

Get to know your skin and what's normal for you, particularly if you're over 40 years of age. If you notice any of these symptoms or any other unusual changes, tell your doctor without delay.

If it's skin cancer, the earlier it's found, the greater the chance of successful treatment.

Visit <https://www.findcancerearly.com.au/cancer-symptoms/skin-cancer/> for more information.

Call us on **13 11 20**

MEPAU in the Mid West

Mitsui E&P Australia (MEPAU) is a WA-based energy provider with two facilities in the Mid West. MEPAU is a significant contributor to the development of a sustainable supply of energy for the nation and in addition to maintaining its energy resource portfolio, is pursuing new low carbon energy and carbon abatement opportunities.

CYGNUS HUB

Together with project partner WesCEF, MEPAU is planning to develop a carbon capture and storage (CCS) hub based in the Mid West region of WA alongside our other activities.

Pilot Injection Test

We have successfully completed a CO2 Injection Test at the end of February 2024, the pilot stage of our Cygnus CCS hub. MEPAU's vision for the Cygnus Hub is to reduce emissions from our facilities and provide a service to other industries to support decarbonisation of their operations.

WAITSIA GAS PROJECT

MEPAU and its joint venture partner Beach Energy are working to safely deliver the Waitsia Gas Project near Dongara.

Waitsia Gas Project Stage 2B

The Waitsia Gas Project Stage 2B (WS2B) proposes to drill a further five wells that will be tied-back via new flowlines to the Waitsia Gas Plant.

Earthworks for the construction of Waitsia-12's well pad will commence in March 2024. Drilling of the additional wells is anticipated to begin in July 2024. For the latest schedule of activities, please refer to www.mepau.com.au/schedule-of-activities/

Gynatrix-01 well testing complete

The Gynatrix-01 (G-01) well testing activities were completed in February 2024.

Our WS2B well completion and testing activities are planned for Q3, 2024.

COMMUNITY

We support the local community by partnering with local organisations and not-for-profit groups to provide support for locally driven initiatives.

Energy Club WA Next Generation Schools

MEPAU is pleased to continue supporting the Next Generation Schools Program in 2024 alongside JV partner Beach Energy. This program introduces secondary students to the energy industry in a fun, interactive and educational environment.; and this year, six Mid West high schools have elected to participate.

Mid West Community Grants

**APPLICATIONS OPEN
1 MARCH - 1 APRIL 2024**

**Grants of up to \$4,000
AVAILABLE FOR 2024 PROJECTS,
EVENTS & INITIATIVES THAT SUPPORT:**

▶ **Education, Skills Development & Training** opportunities for people living in the Mid West.

▶ **Employment and pre-employment training initiatives** for Mid West communities, especially initiatives that benefit youth and local Indigenous persons.

▶ **Community-focussed initiatives** involving social engagement, community welfare, health and fitness, or the natural environment.
